CHARACTER EDUCATION PARTNERSHIP

(www.character.org)

Mengapa CEP...???

- ❖ Character education is essential.
- ❖ Character education is very effective when **done right**.
- ❖ Character education should be a core mission of all schools.
- ❖ Character education **reinforces what is taught in homes, worship centers, and communities.**

Performance character consists of those qualities—such as diligence, a strong work ethic, a positive attitude, perseverance, ingenuity, and self-discipline—needed to realize one's potential for excellence in school, the workplace, or any area of endeavor.

Moral character consists of those qualities—such as integrity, justice, caring, respect, responsibility, and cooperation—needed for successful interpersonal relationships and ethical behavior.

Good and Smart School

Ethical Learning Community (ELC)

Developing Collective Responsibility for Excellence and Ethics

In an **ethical learning community**, faculty and staff, students, parents and the wider community support and challenge each other to do their best work (performance character) and be their best ethical self (moral character).

The function of education is to teach one to think intensively and to think critically. Intelligence plus character - that is the goal of true education.

— Martin Luther King —

AZ QUOTES

“good and smart children”

Educating character is the process of **teaching, learning, and inculcating good character and behavior in children**

Engage	These activities mentally engage the students with an event or question. Engagement activities help students make connections with what they know and can do.
Explore	Students work with one another to explore ideas through hands-on activities. This exploration provides a set of common experiences for all learners. Under the guidance of the teacher, students begin to clarify their understanding of major concepts and skills.
Explain	Students construct explanations of the concepts and processes about which they are exploring and learning. Teachers clarify students' understanding of concepts and help them develop skills.
Elaborate	These lessons challenge students to apply what they have learned to a new situation and to build on the students' understanding of concepts in ways that extend their knowledge and skills.
Evaluate	Students assess their own knowledge, skills, and abilities. These lessons also allow teachers to evaluate students' progress and inform instruction.

Learning to be

Learning to live
together

Learning to do

Learning to know

Empat pilar pembelajaran dan pendidikan (Jacques Delor – President European Commission –
Publikasi UNESCO → Learning the Treasure Within)

- ✓ Education is a dynamic, open human relationship
- ✓ Education cultivates a critical awareness of the many contexts of learners' lives - moral, cultural, ecological, economic, technological, political
- ✓ All persons hold vast multi-faceted potentials which we are only beginning to understand. Human intelligence is expressed through diverse styles and capacities, all of which we need to respect.
- ✓ Holistic thinking involves contextual, intuitive, creative, and physical ways of knowing
- ✓ Learning is a lifelong process. All life situations may facilitate learning
- ✓ Learning is both an inner process of self-discovery and a cooperative activity
- ✓ Learning is active, self-motivated, supportive, and encouraging of the human spirit
- ✓ A holistic curriculum is interdisciplinary, integrating both community and global perspectives

Terdapat **SEBELAS PRINSIP** → menjelaskan **budaya sekolah** yang menuntut dan mendukung kebijakan mengenai nilai-nilai kebajikan terkait etika dan kewarganegaraan.

Kesebelas prinsip tersebut dapat memajukan baik ***Moral Character*** maupun ***Performance Character*** siswa melalui **setiap fase kehidupan siswa**, **mengembangkan komunitas kepedulian sekolah**, **menciptakan kurikulum akademik terikat (*engaged academic curriculum*)**, **mempromosikan kepemimpinan sekolah**, dan **mengikutsertakan keluarga dan masyarakat sebagai partner**.

Sebelas Prinsip Pendidikan Karakter

Lickona, Schaps & Lewis, 2007: CEP's Eleven Principles

- 1) Promotes core ethical values and supportive performance values as the foundation of good character.***
- 2) Defines “character” comprehensively to include thinking, feeling, and behavior.***
- 3) Uses a comprehensive, intentional, and proactive approach to character development.***
- 4) Creates a caring school community.***
- 5) Provides students with opportunities for moral action.***

- 6) Includes a meaningful and challenging academic curriculum that respects all learners, develops their character, and helps them to succeed.**
- 7) Strives to foster students' self motivation.**
- 8) Engages the school staff as a learning and moral community that shares responsibility for character education and attempt to adhere to the same core values that guide the education of students.**
- 9) Fosters shared moral leadership and longrange support of the character education initiative.**

- 10) Engages families and community members as partners in the character-building effort.
- 11) Assesses the character of the school, the school staff's functioning as character educators, and the extent to which students manifest good character.

Bukti dari sebelas prinsip tersebut...

“More than 100 National Schools of Character recipients in U.S. over a 12-year period, when schools implement these Eleven Principles well, test scores typically go up and behavior problems go down—often dramatically,” and much more...

Bagaimana membentuk “Character Education Partnership”

Schools, Parents,
and Communities
Working Together

Beberapa contoh baik dari penerapan CEP di US

- **Parents in Leadership Roles** → komite sekolah terlibat aktif membantu sekolah dalam membentuk rencana pendidikan di sekolah → di US: pada wilayah dengan pengangguran tinggi diantara pekerja tambang, orang tua menekankan pendidikan karakter yang mendorong *self-esteem*
- **School-Sponsored Parenting Education** → Program *Schools That Work* dari Departemen Pendidikan US → Pelatihan untuk orang tua yang dilakukan sekolah-sekolah yang mayoritas siswanya berasal dari keluarga miskin dan *single-parent*
- **Values Education Homework** → sekolah memberikan “family homework” yang berisi cerita pendek atau puisi yang mencerminkan kebiasaan-kebiasaan di rumah, yang dikerjakan bersama oleh anggota keluarga
